

MARK L. WILLIAMS

Mark L. Williams is a Senior Staff Land Representative with Chevron North America Exploration and Production Company in Houston, Texas. Mark graduated from the University of Kansas in 1978 with a Bachelor in Science degree in Civil Engineering, and in 1980 with a Masters in Business Administration. He started work as a Business Analyst with Chevron's Supply & Distribution Department in Houston. After a series of rotational assignments, Mark transferred to New Orleans, where he worked with Chevron Pipe Line Company in a series of engineering and business assignments. In 1993, Mark graduated from Loyola University Law School with a Juris Doctor degree. After a brief assignment in California with Chevron Research & Technology Company, Mark returned to New Orleans to work in Chevron's Gulf of Mexico Land Department, where he was assigned to support Shelf Operations, then Deepwater Exploration groups. Mark was recently reassigned to Houston where he currently supports Deepwater Appraisal and Major Capital Projects. Mark has worked on several high-profile projects such as BAHA, Trident, Tahiti, Great White, Genesis, Typhoon, and Mad Dog. His work experience includes farm-outs, divestments, exploration, appraisal and development activities, joint operating, production-handling, and leveraged participation agreements.
