

Rance Wall
Minerals Management Service
Alaska Regional Supervisor, Resource Evaluation

Rance is the Regional Supervisor, Resource Evaluation for the MMS Alaska Office, since October 1995. He is responsible for issuing seismic permits, assessing oil and gas potential, subsurface unit/production issues and determining fair market value for tracts receiving bids in lease sales on the continental shelf off Alaska.

Prior to becoming Regional Supervisor, Rance held various engineering positions with the Boeing Commercial Aircraft Company, the Corps of Engineers, the Bureau of Reclamation, and the Bureau of Land Management. He holds a BS in Civil Engineering from LSU and a Masters in Petroleum Engineering from Tulane University. Rance is registered as a Civil and Environmental Engineer in Louisiana.
