

Dan Smallwood
Chief Operation Officer – Marine Well
Containment Company

Daniel Smallwood serves as chief operating officer for the Marine Well Containment Company. In this role, he leads MWCC's operations team to ensure that the containment equipment is ready to be deployed, installed and operated by the Responsible Party.

Previously, Mr. Smallwood served as operations manager for ConocoPhillips Upstream assets in the Gulf of Mexico, Louisiana and East Texas, and managed ConocoPhillips wetlands holdings in South Louisiana. He has held both engineering and operational positions in Texas, Wyoming, Louisiana, and Alaska for ConocoPhillips.

Mr. Smallwood graduated from the University of Texas with a B.S. in Petroleum Engineering.
